

Dodson JA, Truong TTN, Towle VR, Kerins G, Chaudhry SI. Cognitive impairment in older adults with heart failure: prevalence, documentation, and impact on outcomes. *Am J Med.* 2013;126:120-126.

Information regarding one of the funding sources was inadvertently omitted. This work was supported in part by a grant from the Claude D. Pepper Older Americans Independence Center at Yale University School of Medicine: (#P30AG021342 NIH/NIA).

Frishman WH. Enhancing Medical Adherence. *Am J Med.* 2012;125:841-842.

On the second page of this article, the author states, “They observed that approximately one third of patients who have a myocardial infarction and approximately one half of patients who do not have a myocardial infarction *adhere* to effective cardiovascular preventive drug therapy.”

The text should read: “They observed that approximately one third of patients who have a myocardial infarction and approximately one half of patients who do not have a myocardial infarction *did not adhere* to effective cardiovascular preventive drug therapy.”

Akbaraly T, Sabia S, Hagger-Johnson G, et al. Does Overall Diet in Midlife Predict Future Aging Phenotypes? A Cohort Study. *Am J Med.* 2013;126:411-419.

In the abstract of this article, 2 percentages were transposed. The erroneous text reads: “...nonfatal cardiovascular

event (7.3%), cardiovascular death (2.8%), noncardiovascular death (12.7%), and normal aging (73.2%).”

The correct text is: “...nonfatal cardiovascular event (12.7%), cardiovascular death (2.8%), noncardiovascular death (7.3%), and normal aging (73.2%).”
