Manuscript submissions: Submit all manuscripts to Joseph S. Alpert, MD, Editor-in-Chief, at www.ees.elsevier.com/ajm. New users will be asked to register and create a user account in the online system. Authors who have submitted to the Journal in the past may have existing accounts in the system. The online system includes an author tracking feature that monitors the publication process from initial submission, through screening, review, revision, and publication. Paper submissions cannot be accepted. Please send editorial questions to editors@amjmed.org.

AudioSlides: The journal encourages authors to create an AudioSlides presentation with their published article. AudioSlides are brief, webinar-style presentations that are shown next to the online article on ScienceDirect. This gives authors the opportunity to summarize their research in their own words and to help readers understand what the paper is about. More information and examples are available at <http://www.elsevier.com/audioslides>. Authors of this journal will automatically receive an invitation e-mail to create an AudioSlides presentation after acceptance of their paper.
